COLSTON®

World Largest Bathtub

Thinking inside the sector, but outside the box.
It's important to stand out from the crowd, and in part that means offering an impeccably designed catalogue that never fails to inspire, highlighting the level of quality and style that the COLSTON GROUP has achieved in its designs.
A gallery of products that are always a step ahead of spa sector trends, demonstrating the company's flair for research and experimentation. The result is a balanced combination of versatility and advanced technology that features the most exclusive kind of contemporary design.

PACKAGING

Production Process

Whether it designing, conceptualization, mould making, vacuum forming, glassfiber insulation, and finally, testing and assembly, Colston has the complete manufacturing facility process under one roof in a fully integrated plant.

Technology & innovation

Colston has taken a lot of measures to introduce latest technology and Innovative products in the markets. Colston recently comes with technologies like Vitamin bath shower, Scottish shower, 3d circulative opposite hydro-massage, Large led ceiling shower with chromatherapy, Chemical-free micro-nano bubble skin care system

Colston bathtubs: hydromassage systems

Colston Bathtubs are equipped with different hydromassage systems, to better answer your needs.

The specific **Whirlpool nozzle**, with exclusive performances that increase the effectiveness of hydromassage, can be easily adjusted to vary the direction and intensity of the jet to better suit personal needs. It also can be easily disassembled for deeper cleaning.

The **Airpool nozzle** in the bottom of the bathtub is flat and minimal to increase comfort during the bath.

Some bathtub models are fitted with a specific directionable nozzle, **JET PLUS**, focusing on back and feet zones, that makes the massage experience more intense and revigorating.

WHIRLPOOL SYSTEM: mixed air and water flow out of the directionable jets, which direction may be adjusted and intensity can be varied to stimulate the blood and lymphatic circulations.

The Pulsating **Whirlpool function** alternates a softer to a more dynamic massage, similar to the sensations given by the sea waves.

AIRPOOL SYSTEM: air bubbles are released from the air nozzles positioned at the bathtub bottom, for a delicate and caressing massage.

The Pulsating **Airpool** function alternates a softer to a more dynamic massage, similar to the sensations given by the sea waves.

MAKE IN INDIA INITIATIVE

Driven by 'Make in India' initiative, we at Colston have decided to design and develop range of wellness products e.g. Waterfall Bathtub, Showers, Faucets, Steam Generator of High quality, suitable to Indian environment conditions.

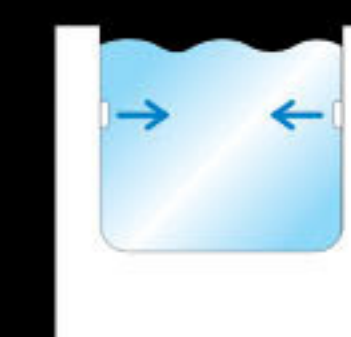

FEATURES

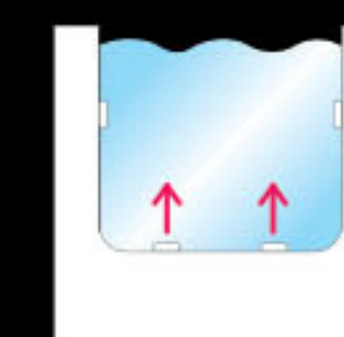

Colston bathtubs can be equipped with taps and fittings installed on the tub rim, with manual or thermostatic mixer, water inlet or inlet with overflow. The Colston wellness experience can be completed by some comfortable headrests, underwater light or chromotherapy and, on some models.

QUALITY AND ENVIRONMENTAL CARE

Colston bathtubs are out of coextruded material: a high quality and durable material, easy to clean and maintain. Our products are green by definition, as our production process allows the recycling of the scratches, thus reducing the environmental impact.

HYGIENE

Colston idromassaggio bathtubs are fitted with an exclusive system, **blowing after**, which empties the air lines of any residual water by blowing air through the system after the bathtub has been drained, thus offering maximum hygiene. When required, Colston bathtubs are equipped with a semi-automatic **disinfection** programme for cleaning the nozzles and the whirlpool circuit with a sanitizing liquid filled into a special tank.

Bathtub Materials

Sanitary acrylic is a special synthetic material, created to manufacture bathtubs. Acrylic surface is specular and durable. It provides long life, easy care and hygienic requirements for bathtubs.

Extra stability to bathtub provided by thick fiberglass reinforcing layer – 4 mm, in the bathtub base – up to 22 mm thick. Thus, there is no risk of bending or breakage.

Polyurethane foam coat for additional heat, sound insulation and mechanical resistance. Stable metal frame with adjustable feet – easy to dismantle and fold for installing in small bathrooms. Easy to install and dismantle decorative panels. It enables easy cleaning and technical maintenance.

Stable metal frame with adjustable feet, easy to dismantle, Easy to install. It enables easy cleaning and technical maintenance.

- 20 mm reinforcement layer allows to safety install water mixer
- 4 mm PMMA acrylic provides for safe and durable maintenance of bathtub
- 3-5 mm GRP reinforcement gives strength to bathtub
- 10-15 mm HEAT layer provides for additional heat and sound insulation
- Steel frame for bathtub bottom and perimeter ensure stability
- Decorative panels with easily removable, comfortable and secure fittings
- Up to 22 mm reinforcement layer at the bottom secures permanence of the bathtub shape

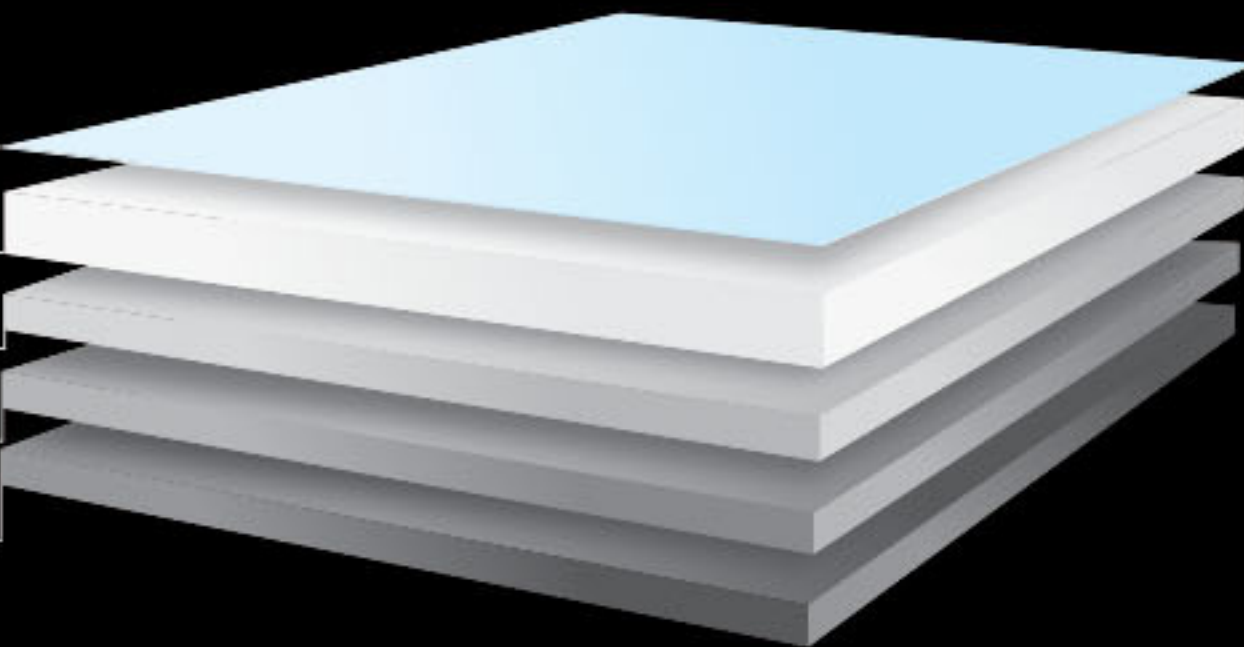

NANO-COATING layer

Double layer of acrylic (up to 6 mm)

Fibreglass and resin (layer 1)

Fibreglass and resin (layer 2)

Reinforced bottom (on a steel frame)

Note: Thickness of the acrylic and reinforcement can vary according to model of bathtubs and hottubs.

Chromatherapy for Steam Shower --- lightings are magic, especially in your shower & bath life!

It has been approved by lighting engineering researches that different lightings have different psychological effects. The Chromatherapy has been widely used to help modern people who live under great pressure due to the fast paces of modern society. Here you can see some ideas about the effect of lighting.

RED: Stimulating

Red stands for movement, passion and emotion. It's a stimulating color by increasing heart rate, releasing and restoring both mental and physical energy spent during particularly strenuous activities.

ORANGE: Cheering

Orange is the representative warm color. It also stands for health, mature and happiness. The color helps to trigger your desire to plunge into the society and helps you to behave from your virtuousness. It's the excellent color to help to get rid of depression.

YELLOW: Cheering

Yellow is pure sunlight which provides beneficial warmth for the entire body. Pessimism, difficulties, dissatisfaction with relationships...all disappears by its warmth.

BLUE: Recovering

Blue brings calm and peace. Research shows that sea blue or light blue color has soothing effect on brains. Enjoy the sensation of surfing in the sea and fully recover yourself from daily life burden with pressure!

Green: Relaxing

This is the color of nature. It promotes equilibrium, giving balance to our psyche. Green relaxes us both physically and mentally, soothing away anxiety and dispelling nervous tension.

PURPLE: Stimulating

Purple makes people creative and thoughtful. Research shows that thinking in purple light is 10 times as fruitful as in white color! Be sure to take a shower in purple light whenever you need to think hard.

*Source : Internet

Spaces in which you can care for yourself. Systems with professional features in which you can experience the beneficial effects of water, steam and heat, the appeal of the materials and the practicality of the space.

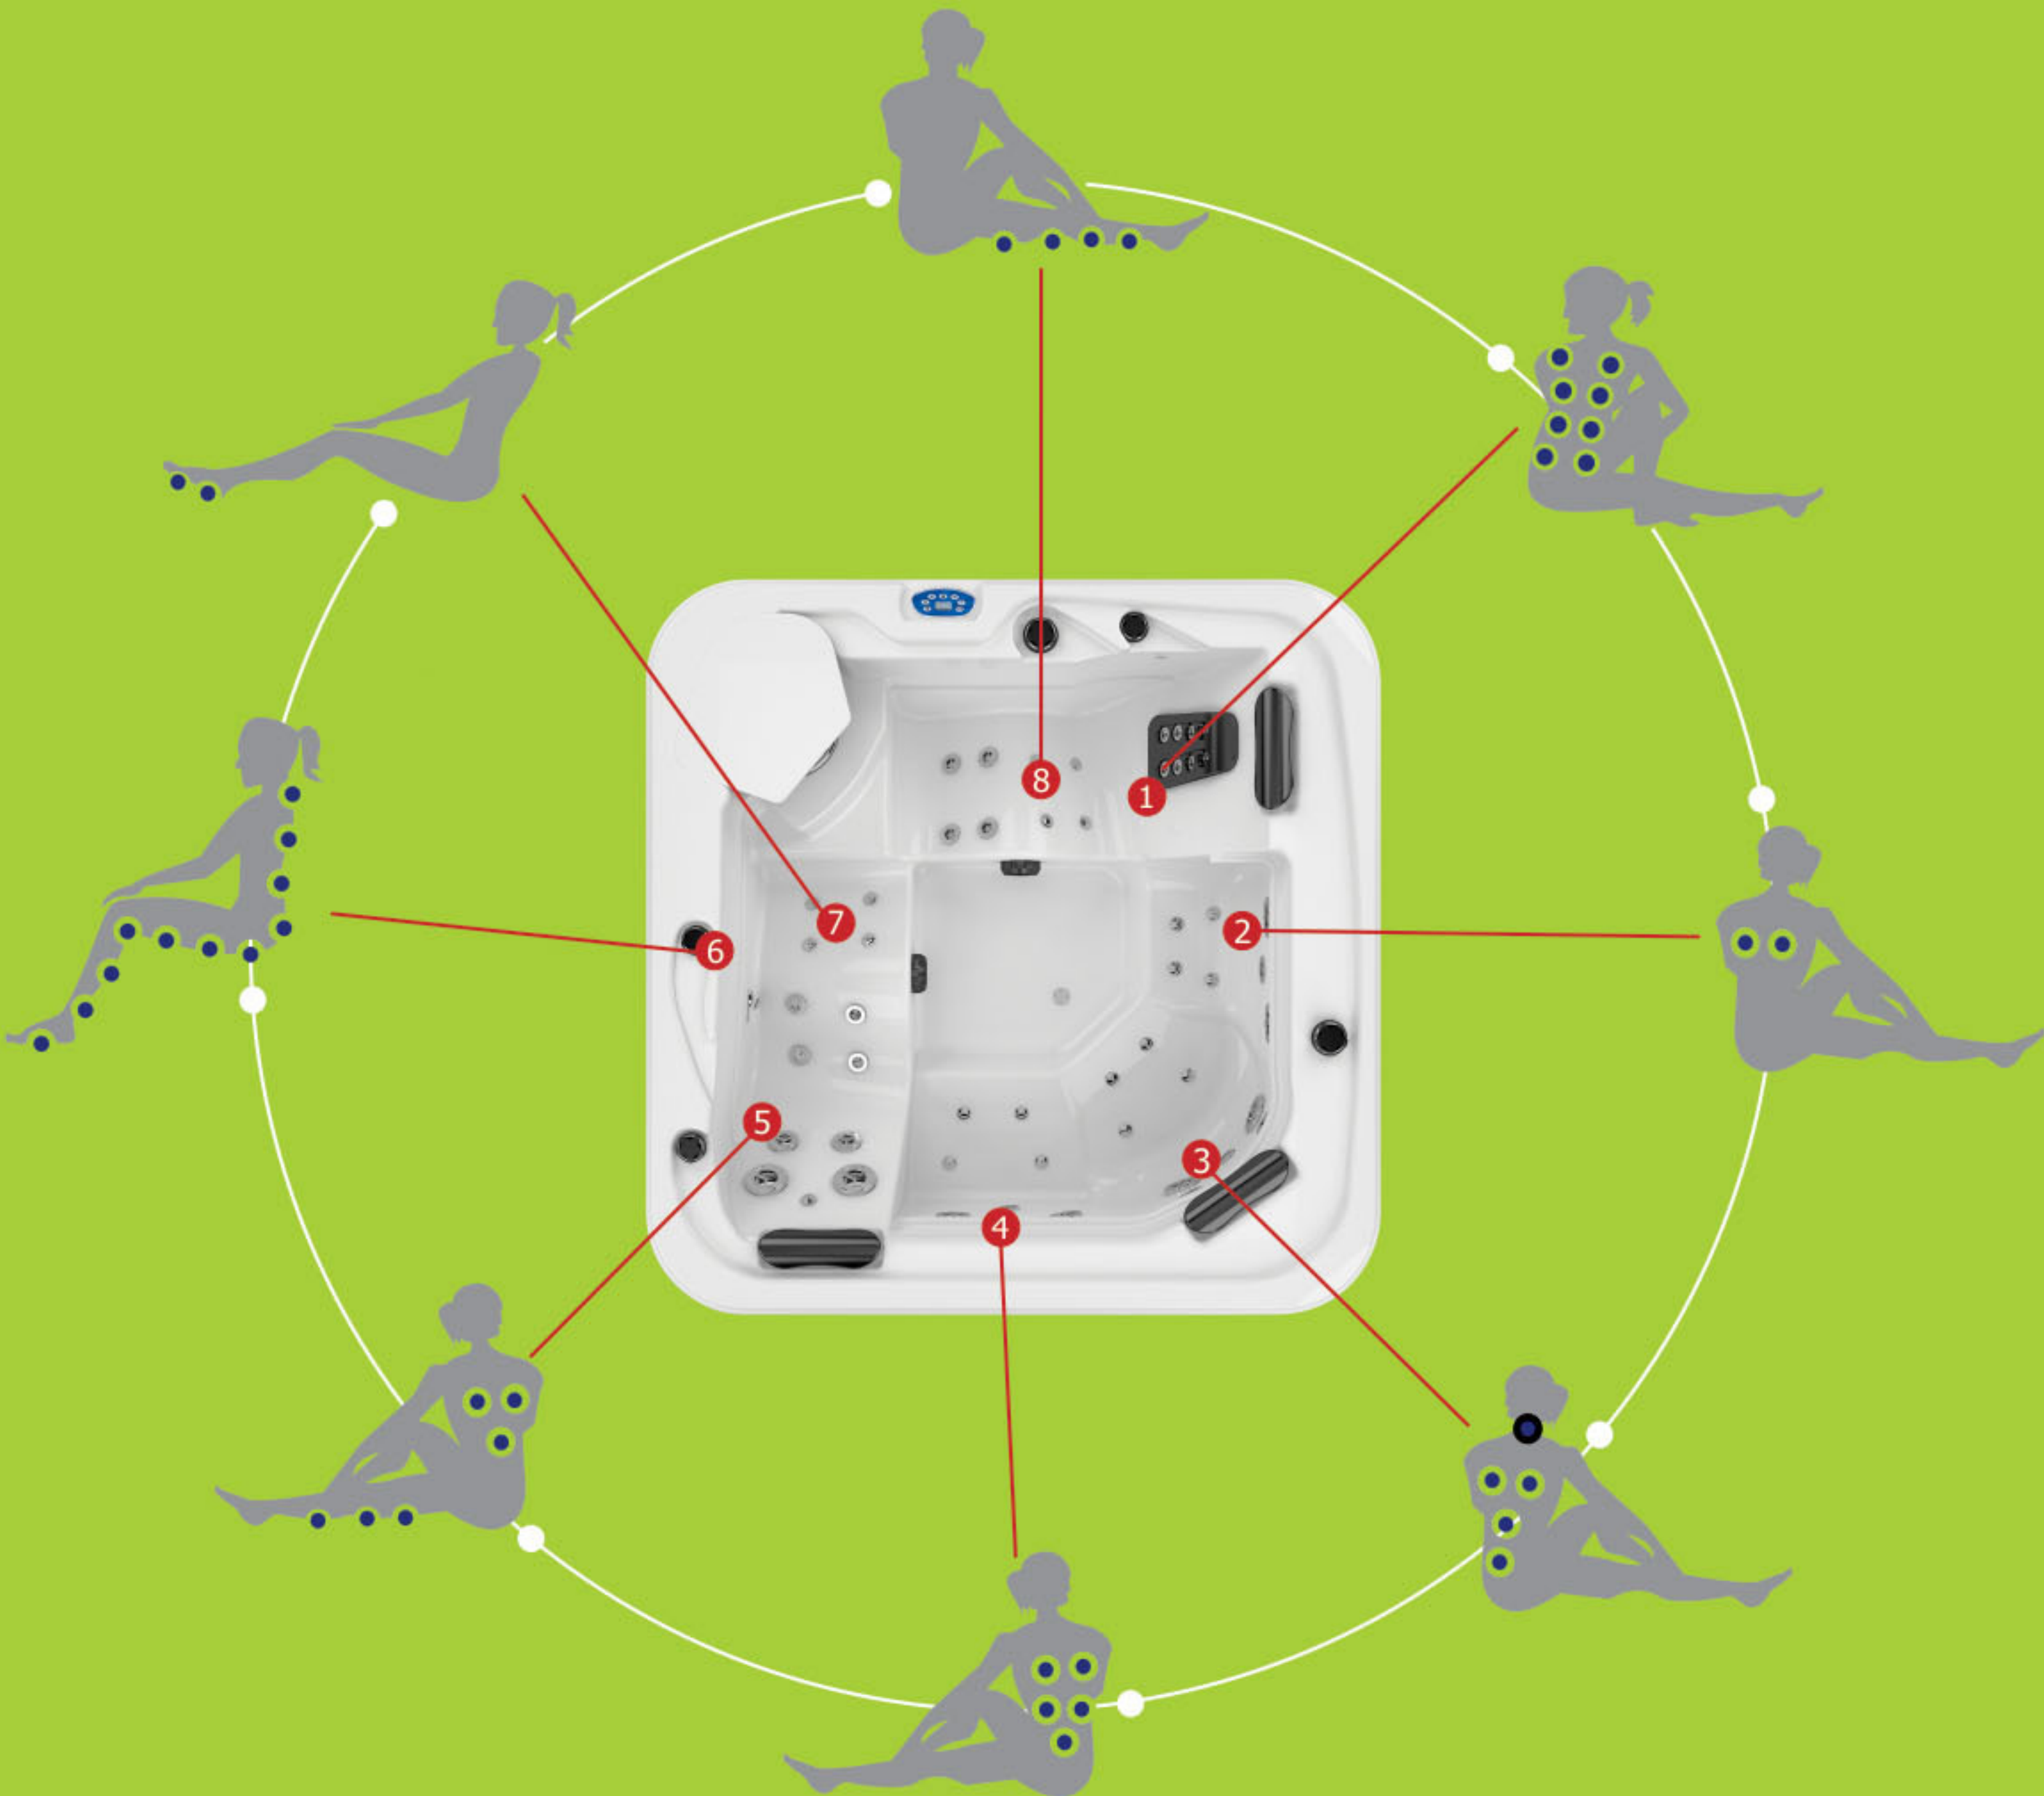

Sauna bath creates a dialogue between the natural vibrations of our body and the sonorous vibrations of the wood, so that we feel cradled and cuddled in a harmonic environment where words and emotions are propagated in an atmosphere of pure pleasure.

In shower areas and in bathtubs, water at different intensities and with different effects, and air through a myriad of sparkling micro sprays, create a unique experience.

OUTDOOR SPA

Massages

OUTDOOR SPA

Stylish design

The Spa collection by Colston have a sophisticated stylish design, impeccable finishes and perform to the very highest standards. The designer style panels in the range have an understated and refined appeal and are all produced using top quality materials so you can choose the finish which best suits the décor of your home or the style of your garden.

The positions of well-being

Every ergonomic Spa seat is fitted with different Jets of varying intensity, positioned to stimulate and relax specific parts of the body. By changing the combinations of Jets in the seats, you can relax with a soft, soothing massage or be rejuvenated with a toning, destressing massage.

Neck, shoulders and mediodorsal muscles: Massage localised on the points where stress is usually felt most. A massage of the neck and trapezius muscles relieves the tension caused by a sedentary job or constant car or aeroplane journeys.

Feet, calves and thighs: The thighs and the rest of the legs benefit in particular from these Jets.

General massage: The Jets located on the bottom of Spa produce a delicate swirling massage.

Clean and hygienic, always

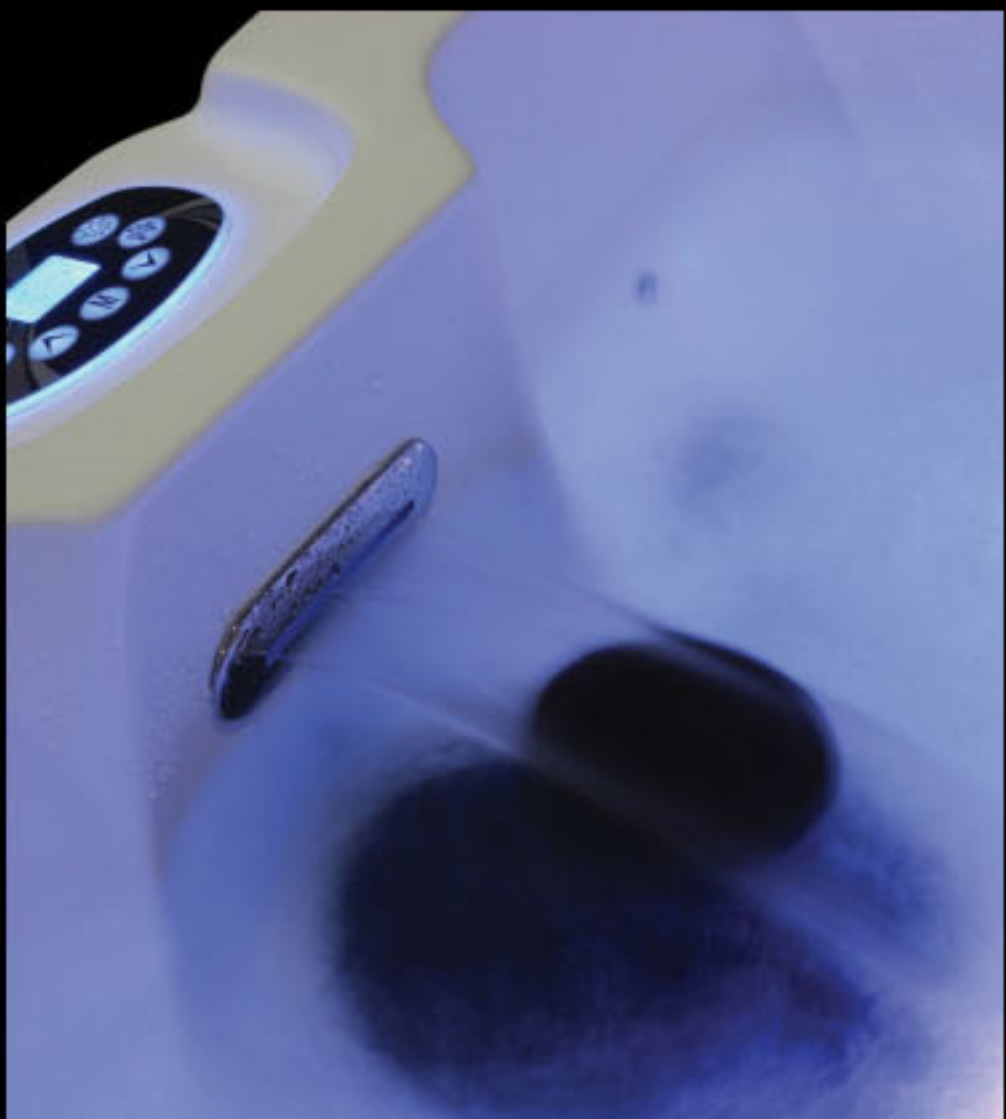

Whether your spa is used for domestic or professional purposes, keeping the water scrupulously clean is an essential requirement.

The large filtering surface of the cartridge **filters** installed on every pump in the spas, ensures the water is cleaned quickly and effectively.

All the Colston Spa models are fitted with a **filter** which provides superior filtration and, as a result, incomparable cleanliness.

The ozone system increases the effectiveness of the filtration, it neutralises bacterial growth and guarantees maximum hygiene.

The internal shape of Colston Spa also means the spa can be emptied completely, making it easier to clean and service.

Installing a Spa, it couldn't be easier

The steel structure of the Colston spas not only makes installation easy, it also guarantees sturdiness and durability over time. Installation and spas from infiltrations and external agents. The Spa models are also quick and easy to install because the frames on both the pool and the Spa Pack have adjustable feet.

Sustainable wellbeing

Colston spas are insulated with closed cell expanded polyurethane, restricting heat loss and thus guaranteeing energy savings. The version with heat exchanger, available for the Spa models, delivers further energy savings and speeds up the time needed to heat the water. The wooden perimeter structure keeps vibrations to a minimum and the sound-absorbent panels around the sides and on the bottom of the Spa models help improve sound insulation, making the whole spa experience even more enjoyable. The insulating cover helps keep heat in, prevents the filters from premature wear and tear and protects Spa from leaves, insects and impurities.

Long-lasting wellbeing

Colston Spa are designed to last, thanks to the top rate materials and technologies used in its construction which are certified for their strength and safety. The high quality standards of the Colston spas make these products ideal for both domestic and professional use.

Comfort

Colston Spa is always ready to use: the system automatically keeps the water temperature constant. The water remains in the pool for long periods of time and is always clean and sanitised thanks to the filtration and ozonisation system. The only time you need to completely empty the spa is when it is not going to be used for a long period of time.

Colston Spa is easy to get into, thanks to the step built into the shell. The outside steps, available in the same finish as the panels, also makes entering Colston spas safe.

Ergonomic seats, soft padded headrests and easy, intuitive controls are guaranteed to make your spa experience truly gratifying.

And your wellbeing will be complete with the chromotherapy function and preset programmes and hydrotherapy, which lets you gradually release your favourite essence through the air pool circuit.

The optional **Bluetooth** entertainment system, fitted with concealed vibrating loudspeakers, enables you to use your own audio device for high quality sound.

High-quality shell

Colston Spa uses the highest level acrylic materials from ARISTECH ACRYLICS (USA) for shell, which provide the most reliable protection for scratches, abrasion and UV, to give you a longer lasting color.

The SPA shell is vacuum formed in our hi-tech factory. Then we use our special formula to reinforce with G.R.P.

Effective energy-saving

We use high-density polyurethane foam material, which is widely used in production of commercial refrigerators. It protects the shell and pipes from heat loss, and reduce noise and vibration.

Natural beauty and low maintenance

We use a maintenance-free polymer cabinet which has natural beauty and solid structure, which is available in several colors.

Stainless steel frame

The frame of our spa is made of high strength stainless steel tube, You will not find a frame stronger and more durable in the world.

High-quality pipe

We choose high pressure plastic pipe which is robust and strong and it can last to keep clean and stop bacteria growth.

- ✓ Manifold plumbing
- ✓ Maintenance-free polymer cabinet
- ✓ Heat trap foam insulation
- ✓ Stainless steel frame
- ✓ Gate valve for easy maintenance
- ✓ High-pressure plastic pipe
- ✓ MP water filtration system
- ✓ Clamp fit for all flexible pipes

Acrylic Sheets

Colston Spa uses the highest level acrylic materials for shell, which provide the most reliable protection for scratches, abrasion and UV, to give you a longer lasting color.

Colorful LED Light

A good decoration for massage pool. When you use the spa, turning on the colorful light, the whole pool becomes more transparent, with the change of color to make your mood better.

Massage Jet

Jets are an essential feature of massage pools. Powerful, efficient massage jets can let you get better massage effect when using the spa, making your body stimulate vitality, becoming more healthy.

Diverter

The function of the diverter is to adjust the flow direction of the massage jets, so that the jets power can be adjusted then can make the power suitable for adults and children to use.

Control System

Colston Spa equipped with most advance control system, that enable you to use maximum advantages of Spa and customized as per your requirement.

High Power Water Pump

Powerful water pump have high speed, powerful, continuous and effective. Providing power to massage jets and filtration.

PIXEL-04

Designed with relaxation and lifestyle in mind, Colston offer Infrared Saunas to suit every lifestyle.

Offering a range of sizes to cater to your individual needs, starting with single person, 2-person, 3-person and spacious 4-person Saunas. Visit Colston for more information about choosing the right sauna for you.

INFRARED SAUNAS

In Infrared Saunas, The major difference is the heat source; in this case it's infrared heat. Our range of Infrared Saunas offer ultimate comfort and relaxation, using this unique heat source to provide a clean and dry beneficial heat.

Infrared Saunas are designed to deliver a number of relaxing benefits and could also be used to aid with:

- Relieving muscle tension • Assisting with relaxation and rest • Detoxing • Promote wellness

Our Infrared Saunas come fully equipped with a control panel that allows you to set the sauna to your perfect temperature. The control panel also offers a variety of functionalities from Bluetooth to setting your sauna's timer. The control panel makes Wellness Saunas easy to operate, and to program your perfect sauna experience.

TRADITIONAL SAUNAS

Heat 185 - 195 degrees F

More superficial heating

Sweat happens at higher temperatures

Requires more power

Uses a heat stove as a heat source

More humidity control

VS

INFRARED SAUNAS

Heat 120 - 160 degrees F

Deep superficial heating

More Sweating at lower temperatures

Requires less power

Uses infrared light in panels as a heat source

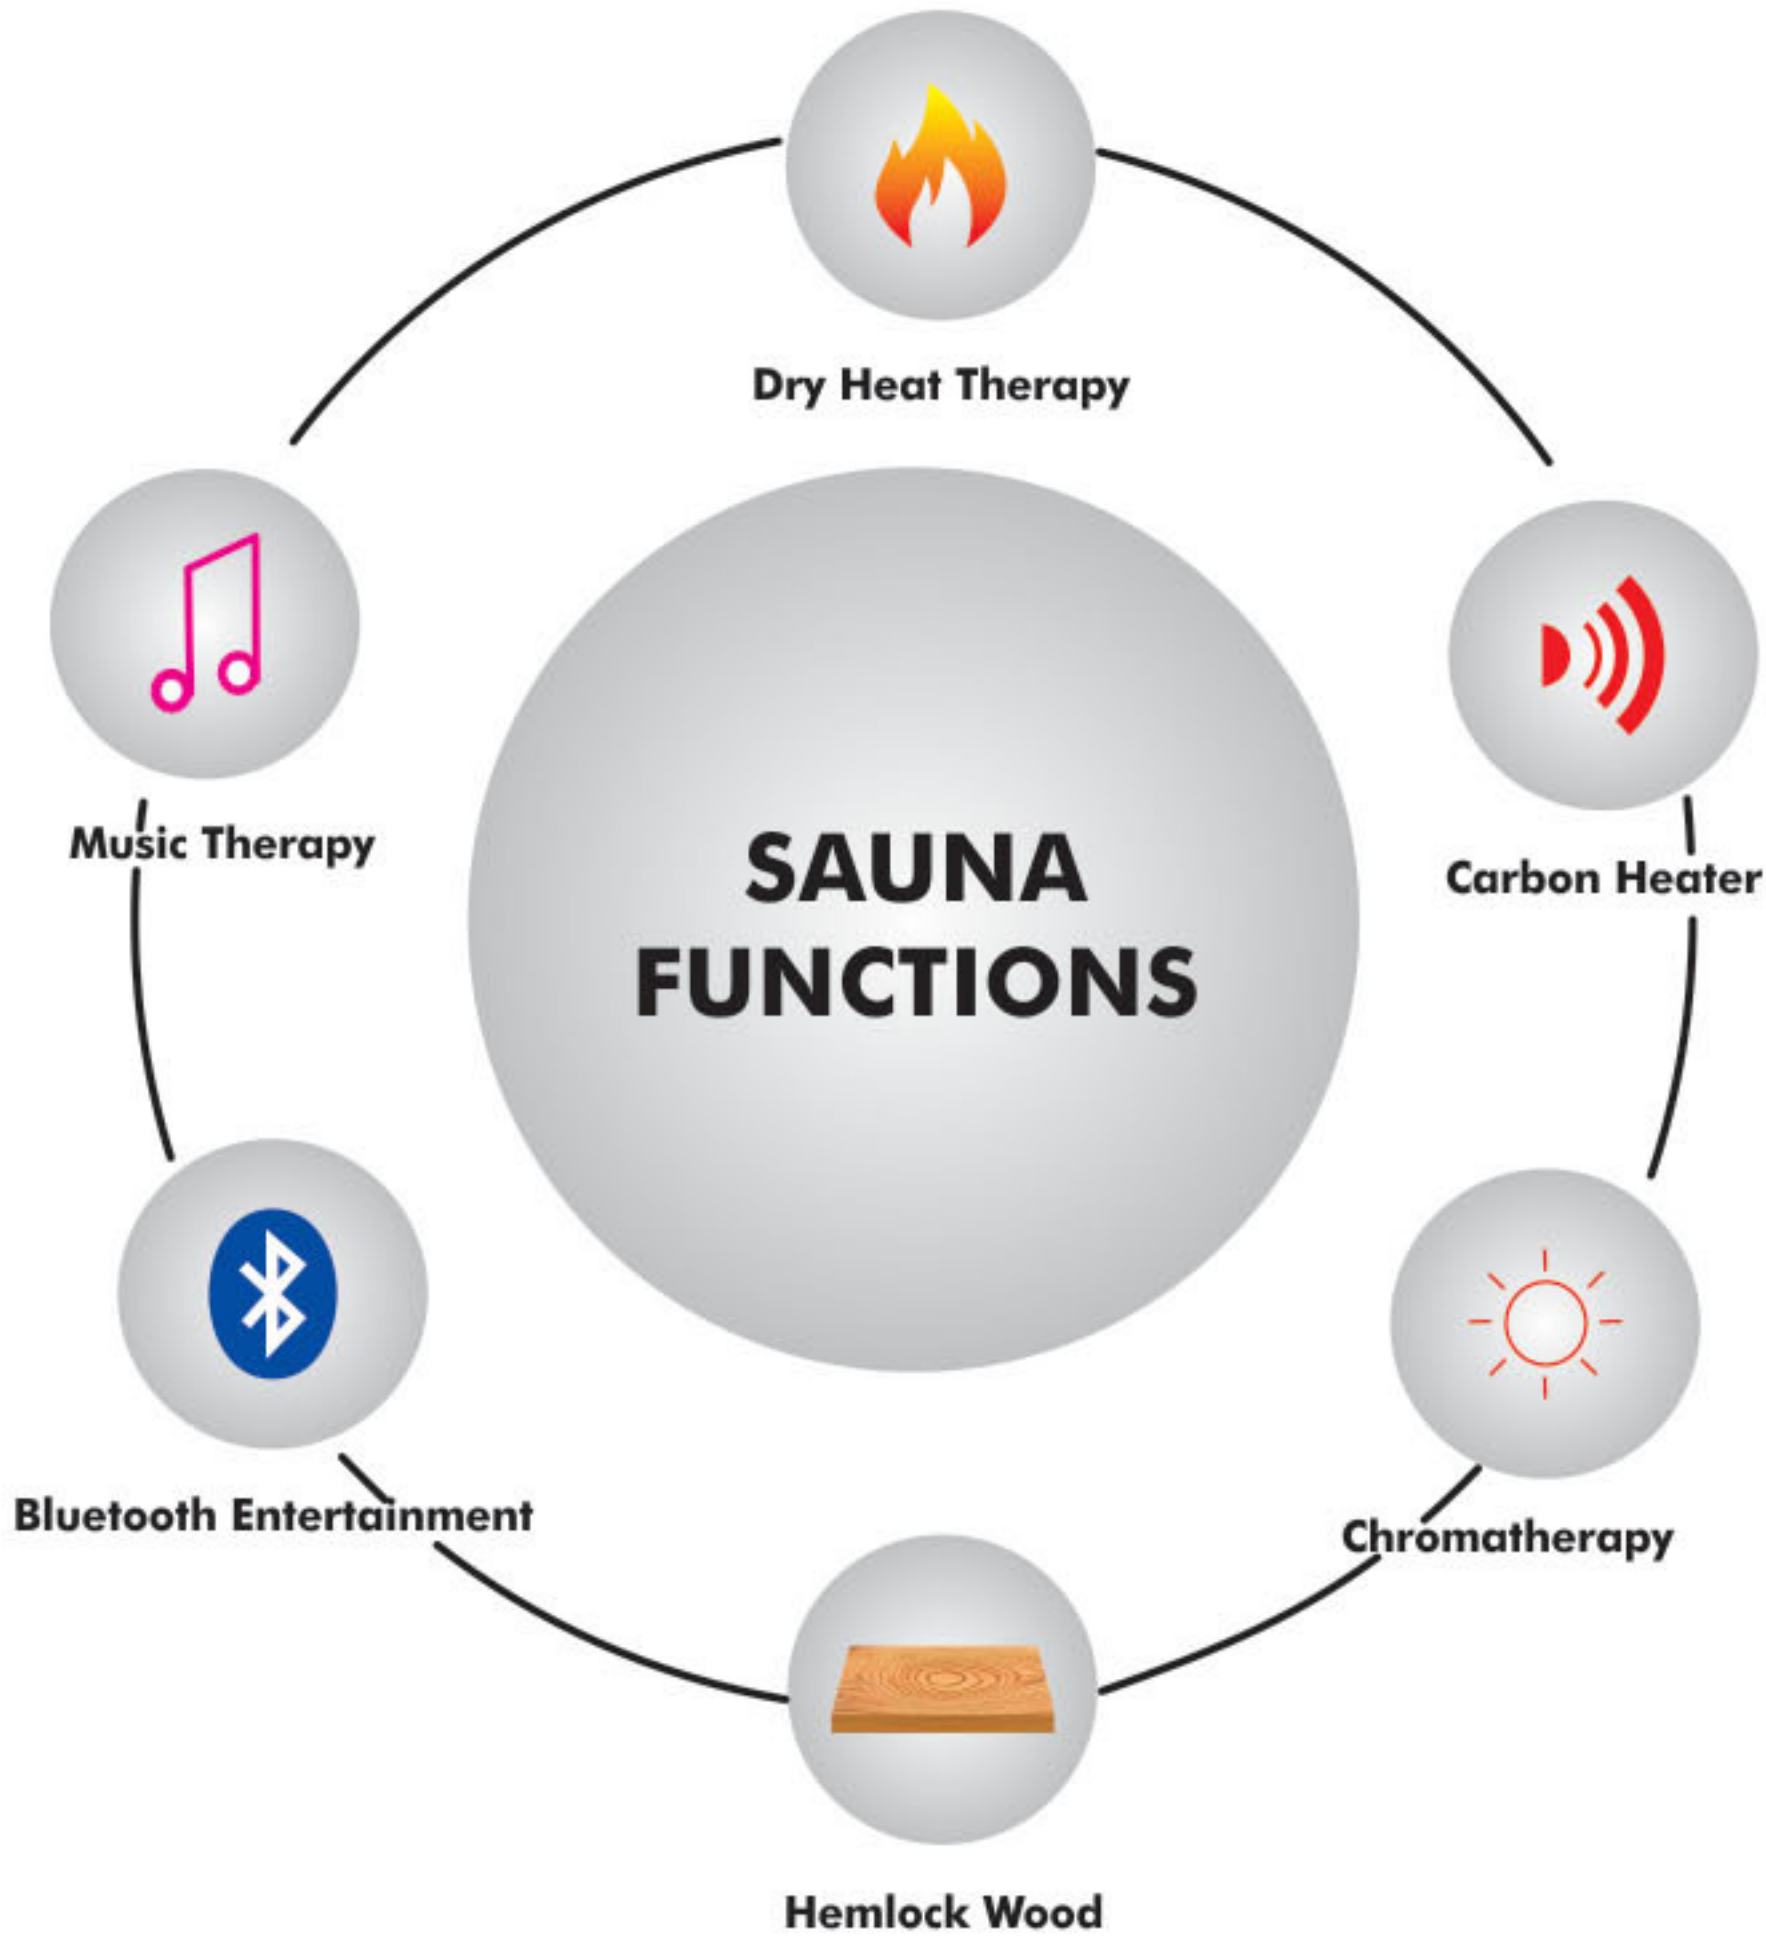

Less humidity control

Perfect sauna rooms are made of top material. We choose world top natural wood, high quality culture stone & safe tempered glass as our materials.

Hemlock wood with the characters of soft wood, natural high corrosion & excellent stability & long life, it can used as decoration of external wall of high-end villa. Colston choose A level Hemlock wood without wood knots to make elegant sauna rooms.

COLSTON®

EXQUISITE LUXURY DESIGNS

Composing the bathroom environment means weaving quality along with intimacy, silence, materials, lights, colors & the interior value of a place and forms. To make these expressions unique; Colston has enriched its family of products with color finishes. Beautifully surfaced along with exclusive character, our new matte finishings are designed to accompany selected washbasins in our portfolio. As far as "LUXOR" is concerned it comes with the special finishing that combines an opaque glaze on the outside of the sanitary fixture with a shiny one on the hydraulic sections in contact with water. An exclusive feature that ensures maximum hygiene. The collection runs over a chromatic range of different shades of vibrant color that are harmoniously compatible and can even be combined with each other.

COLSTON Design Centre (DC), Mumbai

COLSTON unveils the Design Centre for its latest offering of bathroom innovations and technologies at Shakti Mills, Mumbai. Luxury, Exquisite and Smart are the right designations to express the latest Design Centre by COLSTON, whose elevation is inspired by Italian Palladian architecture. Located in the heart of Mumbai's Shakti Mills.

COLSTON Flagship Live Centre (FLC)

A well-designed and well-displayed place to experience the premium bathing products with unmatched hospitality and interactive presentations.

A Centre to serve our channel partners, Architects-designers and consumers to experience the Colston's innovation and advancement in technology in the space of bathing solutions.

Colston Flagship Live Centre located in Lajpat Nagar, The heart of India's capital New Delhi.

Colston is always committed to offer **NEXT LEVEL OF INNOVATION AND TECHNOLOGY** in bathing solutions with the vision to be a leader in luxury and designer bathing products.

The FLC covers the complete bathing solutions with live demonstration functioning and interactive briefing by the professional consultants.

Attraction of the FLC are **RAIN FOREST SECTION, EXCLUSIVE DESIGN LOUNGES**. Design lounges are

created to exposition the real-life imagination of Jewel finishes like Gold and Rose Gold as well as ever attractive Black. This section covers the complete bathroom products from faucets to Sanitaryware to Wellness and accessories under each design lounge. Other attractions of the FLC are showcase section which highlights the **Exclusive Basins, Designer faucets and complete Wellness solutions**.

In Addition to offerings the **FLC cafe lounge** for the visitors to have discussion on the comfortable seating arrangement with the sip of coffees and international appetisers with interactive presentations.

The FLC focuses on bringing Design, Technology and experiential demonstration under one roof. By Making this FLC a platform where Colston's futuristic creation in bathing technology is brought to real world. It revolutionizes the way Customers understand the products.

CAPPADOCIA CAVE BATHROOM

We are talking about a place that really exists. Fairy Chimneys exist all over the world. They are sometimes called Hoodoos, Earth Pyramids and Rock Tents. In fact, they are rock formations, and the Cappadocia Cave Bathroom was first carved out around 200 years ago. That is a very recent action for the historical region of Cappadocia in Turkey, where it is located.

**Design your Bathroom
with the elegance of Rose Gold**

CRAFTMAN BATHROOM SUITE

One of the most pleasant crafted with the artistic values of ancient times moulding in modern art. It concludes the elevation of product & architecture which embeds the amazing fusion of material used. Casting style, technology, mechanism & authenticity makes it unique and demanding among the customers.

"BLACK IS ALWAYS ELEGANT"

BLACK LOUNGE CONCEPT

Black bathrooms are having a moment. Stylish, sophisticated and easy to match with other shades, black just could be the colour we are seeing the most in the bathrooms. So here is the fabulous black bathroom idea to inspire your living.

Strong aesthetic and appealing impact with Geometric Grid design. Like a real sculpture, The Matrix faucet mixer is so worked inside that it evokes the dynamism and geometries of a 3D effect.

PURE & AURA GOLD CONCEPT

Designing a unique bathroom has never been easier. High grade special surface has a different aesthetic effect. Shining gold bring nobility to bathroom.

Articles of Rose Gold bathroom lounge are characterised by an elegant detail, but not extreme, contemporary and suitable for any bathroom. Lines and thin edges that define a perfect perimeter.

CERAMICS

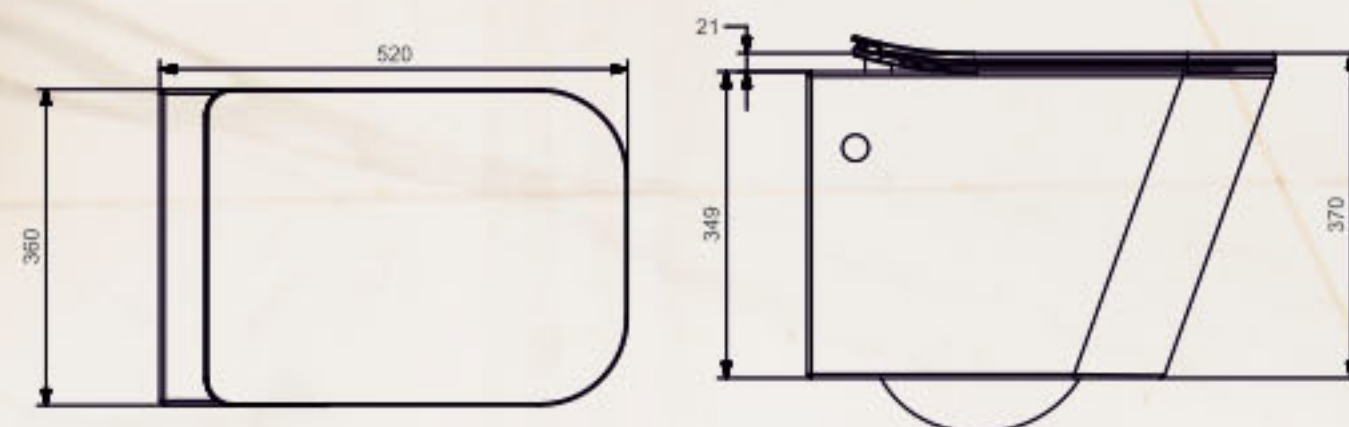

It's a universal concept to develop the new collection of washbasins of different sizes and typologies, available in different color options. A versatile "basic" line that stands out through the aesthetic detail of the slight wall curve and the depth, formal details that proportionate the product from smaller size to the widest.

Technology, design & cleanliness comes together with modernity and inspects the comfort along with functional characteristics of an object while ensuring the quality. Specific proportion is the inevitable standard of the design in drawing. Let it be the House, office, metropolis, shopping mall, hotel, gym or airport. Colston's products such as closet, washbasin, which have antibacterial and easily cleaning hygiene technology, individual and commonly used areas could turn into a quality spot.

Articles of Rose Gold bathroom lounge are characterised by an elegant detail, but not extreme, contemporary and suitable for any bathroom. Lines and thin edges that define a perfect perimeter.

PURE ROSE GOLD
Wall Hung W.C

The WC is surrounded by a ribbon of **metallic crocodile texture** with a distinct emboss. It is decorated with luxurious colors: gold, silver, and rose gold.

The collection is complemented by a range of accessories, which have the same color decoration as the WC.

PURE GOLD

Soft Close
Seat Cover

- black soft cover (Removable)
- Crocodile metallic color toilet bowl

Dedicated to those who enjoy luxury, who seek craftsmanship of value and beauty within the craft, brings every detail to perfection.

Its unique character lends itself equally to minimalist contemporary environments where ethereal quality guarantees it becomes the focal point of any room.

PURE SILVER

High quality ceramic material Modern & luxury designed WC metallic color glazing Fine finishing for your bathing space. Great designs, and flawless finishes are its inherent feature. The range is vast from mono colour WC to metallic colour WC, Moreover the prices are stunningly reasonable

PURE WHITE

Size: 520 x 360 x 370 mm

PURE GOLD

The magic of texture flares the charm of basin and lets the article match the prism of elegance. The vessel sink declines the roughness and give it a natural flow.

It comes in different color range such as Pure Silver, Pure Gold, Pure Rose Gold and Pure White that diminishes the surrounding.

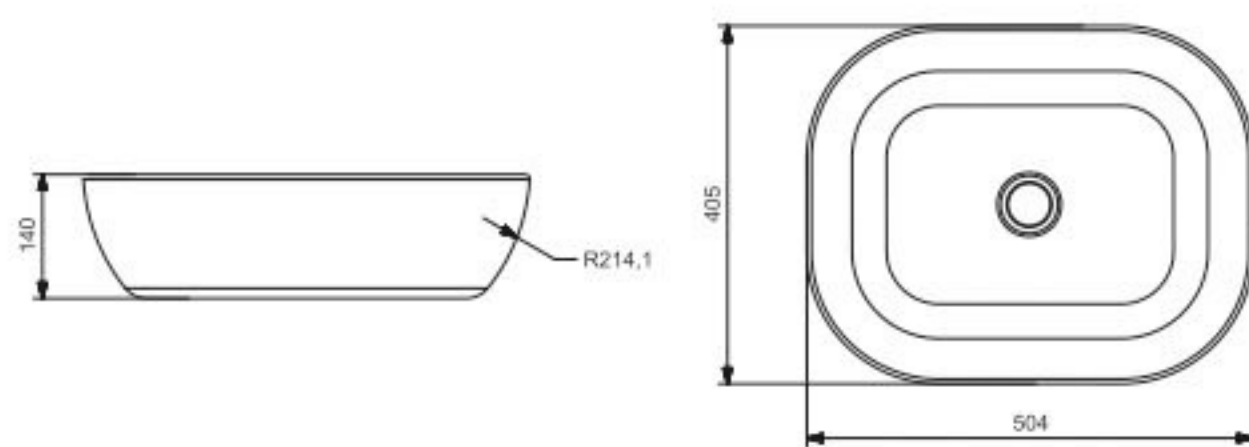

PURE SILVER

PURE ROSE GOLD

These basins are named pure because of its making and engraving of sophisticated texture on surface.

PURE WHITE

OVER COUNTER TOP BASIN

OREO RAIN SHOWER
Size : 350 mm / 250 mm

MADRID

An essential geometry, suitable to minimal furnished environment. Clean and squared lines to enhance simple shapes, definitely entire **Madrid** series cubic in proportion and extremely elegant in its linearity. The Right combination between practicality and design makes it a jewel of designing excellence.

Angular Stop Cock

MYSTRO SPRINKLE
Size : 450 x 80 mm

Prime Madrid is the new collection for **COLSTON**. An excellent and high-quality series expressing rigorous and essential design which complements the Contemporary Lines. The angular body, defined by a clean, decisive profile, is the result of a skilled stylistic exercise in subtraction. The lever, with significant dimensions balanced by a thin profile, is the result of a study on detail and proportion, perfectly combining aesthetics and practicality.

- True masterpiece of European design
 - Handmade crystal glass handles
 - PVD Coating
 - 100% brass body

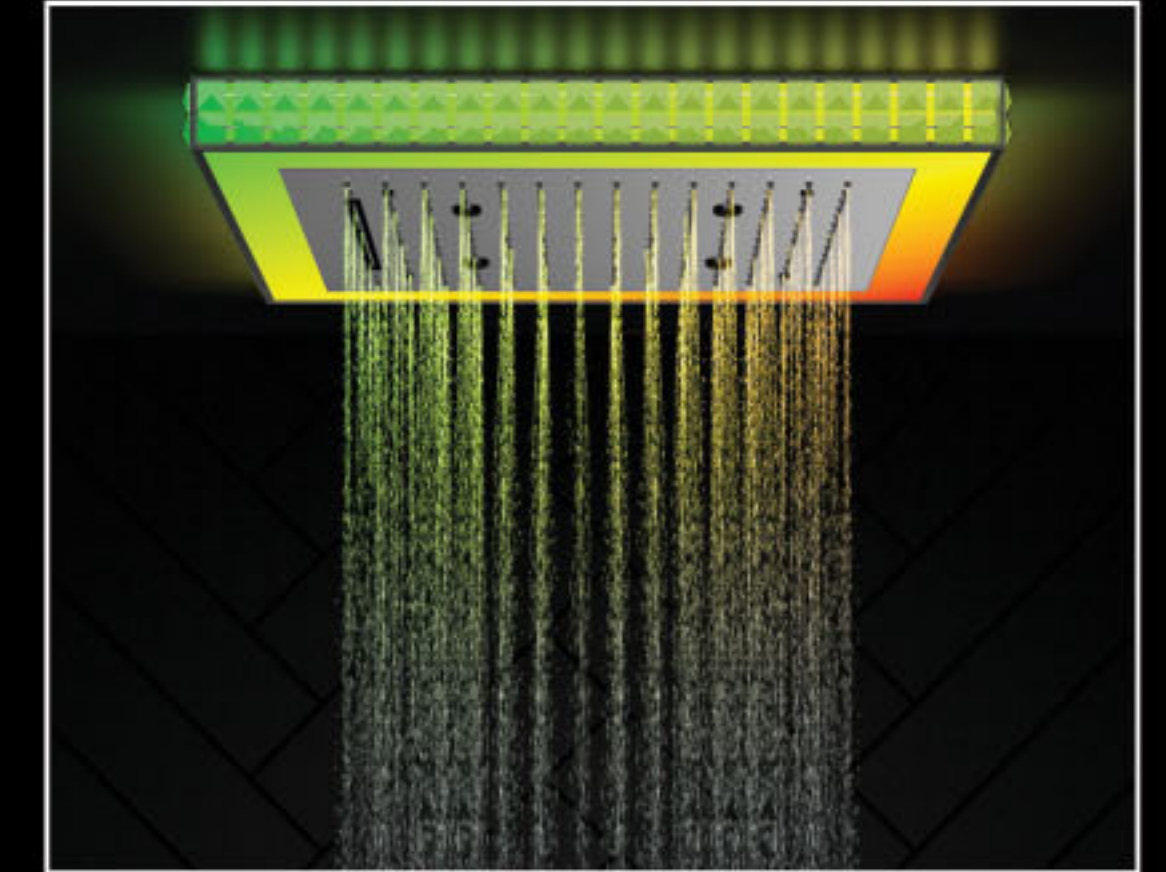

Color THERAPY

Chromotherapy is not only a beautiful play of light and colours. There are several studies certifying the functionality of chromotherapy and establishes emotional balance for dealing with everyday tasks. From the range of chromotherapy colour, so related to relaxation and tranquility, to the vital energy by warm chromotherapy, together with the effects of the different water functions, can lead to highly benefits for mind and body.

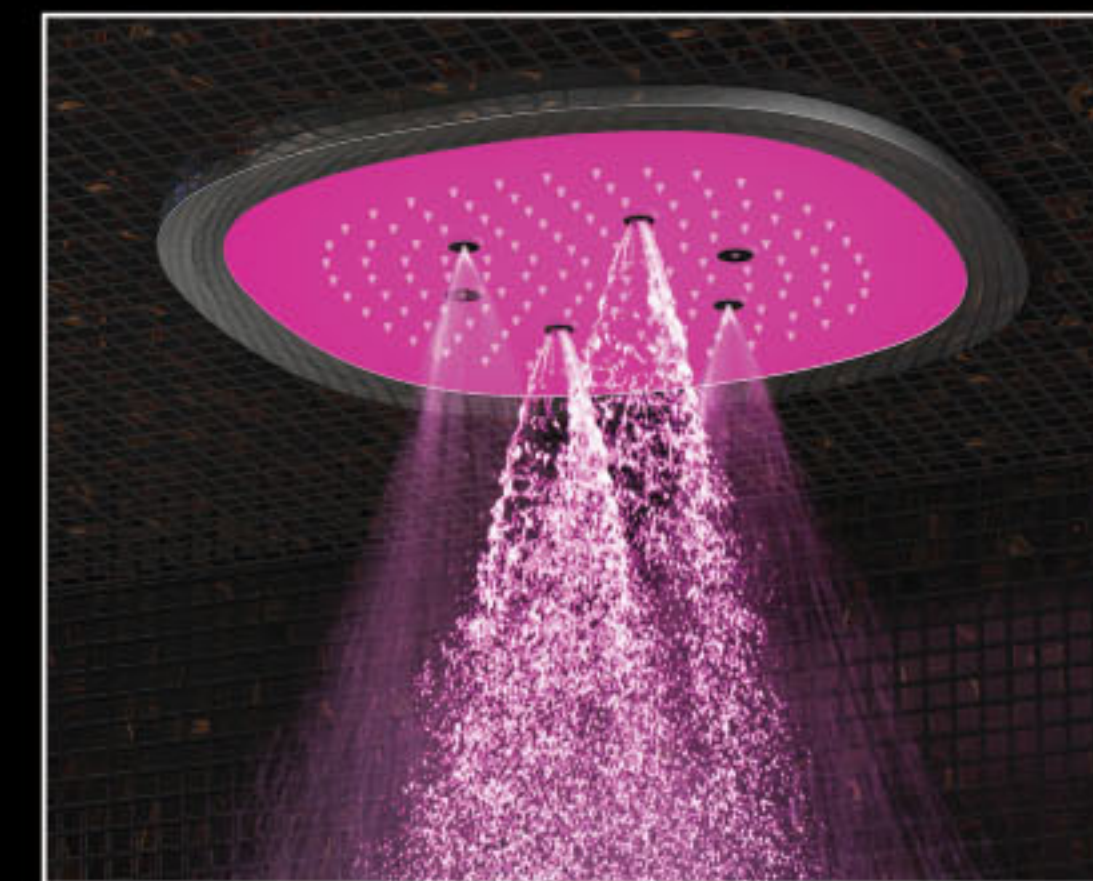

- White is pure and clarifying to the senses, as well as the mind.
- Yellow is hopeful and stimulating, especially for creative thinking.
- Turquoise is serene and stress reducing — think of the Mediterranean.
- Light red is bold, warming, energizing and courageous.
- Green brings harmony and balance to the spirit.
